

Working under the handicap imposed by government edicts and the drought conditions, cattlemen of the central and South Florida area have been in a desperate situation. Conditions became so desperately bad that producers had to make special appeal to the government for relief. Cattlemen have no pasture or range to turn out their stock off to slaughterhouse men cannot kill cattle and dispose of the meat. The government has regulations in place and as a result there is a meat all round. Relief came after an inspection now be

## MIRRAPIANOS

That pupils acceptance of these fine instruments is an in-  
dispensable fact is proven by analyzing eighteen (18) of our  
most recent sales which discloses eleven (11) were MIRA-  
pianos. They have ushered in a new era in Piano designing.  
The eye sees a small graceful looking instrument, but the ear  
hears the resonant musical tones that is possible only with  
adequate string lengths and generous sounding board area.  
These pre-war pianos contain the best of materials and work-  
manship plus the re-styling into modern looking cases and  
fitting them to grace the most exquisite home. They are fully  
guaranteed and reasonably priced.

We also have a nice collection of medium size uprights  
that are in excellent condition—prices reasonable, terms if  
desired.

## It's no dream, Mr. Farmer...

IT'S A  
REALITY  
— Reddy Kilowatt  
— YOUR ELECTRIC FARM HAND

"Yes, when you take me on as  
a farm hand," promises Reddy  
Kilowatt, "you'll increase food  
production and save critical  
man-power."

"I'll milk the cows, separate the  
cream and churn the butter, lift  
the hay into the loft, fill the silo,  
pump the water, heat the in-  
cubator and—well, you think up the  
job and chances are, I've already  
got a way of doing it faster, easier  
and cheaper than you believe  
possible."

"And, of course, I'm still useful  
around the house, too, as your  
wife very well knows when she  
calls on me to help in sweeping,  
cleaning, cooking, heating,  
cooling, washing,  
refrigerating, lighting  
and all the other jobs  
I can do."

• AFTER YOUR TRUCK has been through our shop you can  
tell by the way it runs that our treatment is good and  
thorough. It takes men who know all about motor trucks  
to make expert repairs. Our mechanics qualify for this  
important work. And they're hard at it these days doing  
all they can to keep more trucks rolling.

Your truck also appreciates good replacement parts. We  
sell the best—genuine International parts that are identical  
with the original parts built into International Trucks at  
the factories. Order your parts now from our big stock.

New trucks will be scarce for some time to come. A few  
will be available in this community for essential civilian  
hauling. We will be glad to help you make out the neces-  
sary applications. But the big thing is to keep your present  
equipment in the best possible shape. That's the important  
job we'll do for you whenever you say.

## TWO REGIONAL FAVORITES OF FINE REPUTE

### FLORIDA DEVILLED CRAB

#### RECIPE

2 cups crab meat  
1 cup bread, broken up  
Onion, thyme, bay leaf, salt, pepper,  
parsley

Soak the bread in a little water, while  
gently browning onion. Squeeze water  
from bread, put bread in skillet, breaking  
it up with a fork as you do so. Add crab  
meat, salt, pepper and parsley and cook  
slowly until well-browned and done. Many  
people like the addition of a little  
 Worcestershire Sauce or sherry. Just be-  
fore you stuff the shells, dust shells, top  
with bread crumbs dotted with oleo and  
place in oven to brown.

Send us your favorite  
regional recipes. When  
printed we will gladly ac-  
knowledge their source.

● The Southeast's reputa-  
tion for good living and  
gracious hospitality is typi-  
fied by these two great  
regional favorites. Picture a  
Sunday night supper planned around de-  
licious Florida Devilled Crab, served to the  
accompaniment of tangy, zestful JAX. This  
mellow Drink of Friendship is a great re-  
gional beer, brewed especially for the tastes  
of Southeasterners who love the good  
things of life. Alone, or in the company  
of good food, JAX is a premium brew de-  
signed for refreshing satisfaction, though  
you don't pay a premium price for its  
choice qualities. Enjoy the golden good-  
ness of this fine, full-bodied beer.

## Permits Indicate Local City Growth Is Coming Fast

U. C. Meek of Palatka, ap-  
peared before the city commis-  
sion to make application for a  
building permit, to erect a Quick  
Freezing plant, to be located  
near the plant of the City Ice &  
Fuel company. This plant will  
be for the use, Mr. Meek stated,  
to freeze and preserve meat,  
poultry, fish and vegetables, and  
would be of frame and steel  
construction, to cost around  
\$17,000. The commission gave  
him permission to proceed with  
foundation construction but to  
submit plans and specifications  
for approval on the other por-  
tions of the building.

The commission also approved

plans and specifications and  
granted a permit to the Ameri-  
can Fruit Growers corporation,  
for a \$40,000 packing house.  
D. F. Crosby and Son, ap-  
peared before the commission,  
asking that a portion of division  
street be changed from a resi-  
dential to a business zone, as  
they desire to open a store and  
construct a modern and sanitary  
chicken house on their property.  
As this is a residential zone, to  
change it, same would need be  
done by the Board of Appeals,  
which as yet is not functioning.

"Bill" Parco also appeared  
before the commission to "talk  
over" some of his projects, and  
after inquiries had been made,  
he was given directions as how  
to proceed with his plans.

#### OBSERVATIONS

Continued from page one  
ing made by Federal survey  
crews.

Test cases of the constitution-  
ality of the recently passed  
legislation which requires a three  
day waiting period before mar-  
riage licenses could be issued to  
applicants, finally brought action  
in the State Supreme Court.  
That high tribunal has now held  
that the law is constitutional,  
so people who are planning on  
putting on the marital harness,  
must file their intention to wed,  
and then wait three days before  
a permit may be issued by the  
county judges of the state.

A survey of the state, and es-  
pecially the Everglades section,  
by state conservation officers,  
brings a most alarming and  
mournful picture of the condition  
of wild life, as a result of the  
prolonged drought and ravages  
by fires during the past few  
months. Inspectors report very  
little water for migratory birds  
and game; that game is dying  
off in great abundance and more

will follow as the conditions are  
unfavorable for their possible  
subsistence. Streams and lakes  
are low in water and fish are  
dying by the millions, and their  
rotting remains are contaminat-  
ing the waters. The entire pic-  
ture for future game and fishing  
is none too bright to say the  
least.

When the newly projected new  
hotel for Belle Glade becomes a  
reality, won't Belle Glade take  
on a new aspect? No improve-  
ment is more needed, and the  
sponsors for the same are to be  
commended in taking the neces-  
sary steps to provide it. A fine,  
well operated commercial hotel  
should be a paying investment  
here. Hundreds of business men  
and travelers, when such traffic  
again becomes possible, will  
seek hospice at such a hotel, and  
will not need to drive miles and  
miles away to secure accommo-  
dations.

## Glades Industrial Items

It is reported that L. L. Stuckey, well known farmer and vegetable packer of Pahokee, has plans approved by the Federal authorities at Atlanta, for a

large two-unit fertilizer plant. One unit will be for the plant and the second for warehouse storage and offices. Plans show a nifty outfit. The Vandegrift-Williams company is reported by N. B. Willis,

Belle Glade contractor, as installing a Cornell pre-cooling plant and rekey washing machines at its packing house at Cardwell, with a capacity of a car an hour. A similar unit is being installed under the same license plans by Contractor Evans at the Boreland plant in Belle Glade. Also that the Hull Packing company plans a pre-cooling outfit, under the Cornell license, for its plant at Pahokee.

Also that the City Ice & Fuel company will soon break ground for the building and equipping of a large ice and pre-cooling plant in the produce center at Lake Harbor. Farmers about that section expect large operations there the coming season, shipping out over both the rail systems that enter there.

## Local Teachers Resign

At the meeting of the County Board of Public Instruction at West Palm Beach, the board received the resignations of three of the Belle Glade staff of last school year, namely: Louise P. Mimm, Irma Milligan and Margaret L. Brunson. Miss Brunson gave her reason for resigning that there are no adequate housing quarters near the school, Alice Kerr of the Pahokee school was also transferred to the Belle Glade elementary school. Miss Anna Wortham of Belle Glade was transferred to the Pahokee teaching staff.

## Get "V" Stamp For Car

Government officials are again informing the car operators to purchase that "V" stamp for their cars by the first of the month, or suffer penalty. The public had hoped that congress would relieve it of this nuisance tax, but apparently without its realization. Promised elimination for 1964.

## Oil Found At Venus

A new oil well reported in the Venus section of Glades county, having been brought in by drillers late Saturday. The well was down 11,000 feet when the oil was struck. Reported not a flowing well prior to shooting, but was producing around 45 barrels under pumping. This is a new development and the finding of oil has set the natives all agog.

## Lake Harbor Badly Needs A Restaurant

Lake Harbor people are hard up for a public eating place, as there is no such establishment there. E. R. Mackey says "such a place is urgently needed, now and for the coming season, and unless supplied, the village is going to be very much handicapped in its working." Here we have the crows operating the trains on the Florida and Coast line systems, we will have a large force of workmen busy on parking house and ice plant work and no place to get a thing to eat nearer than Clewiston or South Bay. We have locations here, we can possibly help out in other ways if someone would come in and establish a business here. We know the patronage would not be lacking and hope that some experienced person in that business may hear or read about this appeal, and come to our assistance.

## "I DENOUNCE HIM"

Continued from page 1  
The Judge (Caldwell), has said to the unhappy couple (north and south Florida) "Now get together and straighten this matter out." The woman (north Florida) says "No sir, I have you where the hair is short and I'm going to snarl when you're ready. I'll give in one white". Such a condition usually results in damage to both parties by drastic action. South Florida is going to become tired and instead of saying "Something should be done," will say "Come on let's do something, such as divide the state". "Out of the mouths of babes, etc. . . . Think it over folks; there's something to it."

## Mrs. Bratley Conducts W. S. C. S. Program

Mrs. Hugé Bratley gave a very interesting talk on the subject of juvenile protection at the meeting of the Women's Society of Christian Service Wednesday afternoon at the Community Methodist church. A solo, "The Voice of God is Calling" was sung by Mrs. W. B. Granger. The business session was presided over by the president, Mrs. H. L. Royals at which time it was voted on to give the local home missionary \$25. It was announced that the contents for Russian relief kits had been ordered and that they would be sorted and packed at the next meeting which will be the quarterly birthday luncheon on June 27th. At the close of the meeting refreshments were served by the hostesses, Mrs. J. I. Freedlund and Mrs. T. Emma Bregg. Others present were Mrs. Cecil McClure, Mrs. J. O. Jameson, Mrs. Ralph Freeman, Mrs. J. A. Hall, Mrs. R. W. Kidler, Mrs. M. M. Sabiston, Mrs. Maude Stallard, Mrs. C. A. Thompson, Mrs. F. D. Stevens, Mrs. Herbert D. Book, Mrs. Frank Morris, Mrs. F. A. LeFils, Mrs. A. L. Wallis, Mrs. Hardy Taylor and Mrs. E. C. Fessenden.

## BLESSED EVENT

Mr. and Mrs. Jack Rogston of Closen announce the arrival of a son, Kenneth Cleveland, at the Everglades hospital in Pahokee, on June 12th.

## Pahokee Lions Take Our Ball Players

Frank Rozelle, smarting under a lamer defeat of 14 to 9, brought his Pahokee Lions down to Belle Glade Wednesday to get revenge and went back home with a 6 to 5 nine inning victory in soft ball. It was a nip and tuck, closely played game until the opening of the ninth when the score was tied, then a triple by Spencer ended the game.

## Lake Harbor Singers Meet

On last Sunday afternoon the auditorium of the new Baptist church at Lake Harbor was jammed with the turnout for the session of the singing convention. The choir used a new song book for the first time but the numbers did not disturb those keen music readers.

If one desires to hear full volume and ear pleasing songs they could hear those melody land singers of that community. This is one community activity over there which the citizens do not overlook with their support. Plenty of good leaders, too, as was demonstrated by the numerous baton swingers who directed the song fest of the day.

## Neighbors ALL

The Seaboard Air Line Railway family comprises many thousands of employees living in various parts of the six states served by the system. At work or play, in their homes, at church or in shops and on the street, these men and women of the Seaboard organization are no different from the people who live and work around about them.

In short, Seaboard employees are an integral part of their community life. As

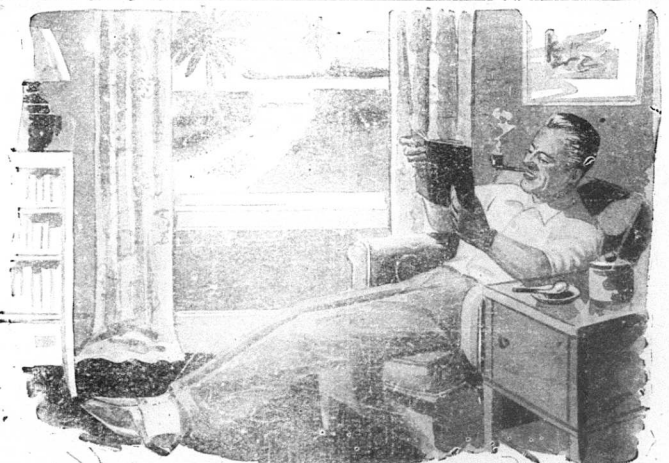

such, they share that mutually friendly interest in the welfare of others which makes for neighborliness in every sense of the word.

As with the individual, so it is with the entire organization. Never forgetting that our primary function is to provide the public with adequate transportation, the Seaboard will likewise strive in the future as in the past to fulfill its role as a builder and a neighbor wherever we serve.
